

## Communications Officer (m/f/d)

Reporting to the Regional Communication & Public Affairs Manager, you will support all communication missions for the Region Western Europe based in one of our offices in Ireland or the UK, as per your preference. You will work with the Regional communication team and other relevant business stakeholders to deliver creative and strategically aligned communication and marketing campaigns. You will manage projects and events from creation and planning to execution. You will also support local country managers to deliver PR assets such as media enquiries, relevant spokespeople and comprehensive messaging on various topics.

### Key areas of Responsibility

- Support in the execution of external and internal communication plans;
- Produce content and write articles for different internal and external channels: newsletter, intranet, magazines, social media;
- Create and Develop communication and marketing materials to support Company activities;
- Support the communication needs of several internal departments: Sales & After-Sales, Project Management, Services, HR, HSE, IT, Legal;
- Plan and manage internal and external events: fairs, site visits, inaugurations, seminars, customer events.

### Core Requirements

- An NFQ Level 7, Degree or equivalent qualification, ideally in the fields of journalism, communications, public relations or marketing;
- Proven experience of high-level writing skills and of producing content for multimedia purposes that effectively communicates key messages to relevant audiences;
- Self-motivated and confident working independently as well as within a team;
- Excellent interpersonal and communication skills including the ability to manage expectations, advise and influence stakeholders, deliver effective and engaging presentations and provide verbal and written updates to senior colleagues.

## DRIVING THE FUTURE

Innovative ideas are the hallmark of our successes and move us on. We are passionate about realizing wind energy projects across the globe and meeting tomorrow's energy technology challenges. You and your engagement can make a contribution to shape the future of renewable energies.
