

Field Service Manager (m/f/d)

Reporting to the Managing Director, **ENERCON Windfarm Services Ireland Ltd** is now recruiting a Field Service Manager. The suitable applicant will be based from our Headquarters in Tralee, Co.Kerry with a hybrid working arrangement available.

Key Responsibilities:

- Act as a delegate/substitute for the Managing Director in their capacity as the Head of Field Service when required;
- Act as a partner to the Managing Director and a support to the Field Area Managers by providing oversight of performance on the Field;
- Monitoring project costs including identifying overspends and tracking margins;
- Identifying initiatives and implementing strategies to optimise Field Service performance;
- Preparing reports on company development and performance including KPI data collection and analysis;
- Make suggestions on adjustments to operations to facilitate improvements where necessary;
- Fostering a strong customer focused communication style within the service organisation and act as a point of contact on certain customer queries where relevant;
- Support in the attainment of compliance with legal and ethical requirements;
- Identify targeted trainings in partnership with the Field Area Managers aimed at improving technician proficiency and subsequent cost efficiency;
- Work collaboratively with other departments on matters related to commercial performance, contingency planning and workload management
- Promoting a robust H&S culture within the field service organisation based on compliance with all relevant legislation coupled with implementation of initiatives.

Qualifications and Profile:

- Technical Degree / Trade Qualification in Electrical / Mechanical or commercial qualification is essential;
- At least three years wind industry experience is essential;
- At least two years management experience is essential, ideally at a mid to senior management level;
