

## HSE Manager Asia

### Your duties

The HSE Manager will be the officially appointed expert for the PM Health, Safety and Environmental topics (HSE) in Asia (Vietnam, Taiwan, South Korea, Japan).

This person will be responsible for all HSE matters related with the Projects and will coordinate the external HSE consultancies working on behalf of PM, audit and track the status of implementation of HSE in the projects and logistics activities.

This high profile position will provide coaching and guidance to the local organizations and encourage them to develop and improve the HSE standards in the projects and general setup.

### KEY SCOPE AND RESPONSIBILITIES BRANCH

- Adaption of global ENERCON HSE rules to local standards and ensure implementation in all projects in the region and fulfillment of statutory obligations in projects and logistic activities
- Selection, coordination and performance assessment of external HSE professionals working on behalf of PM
- Engage in projects to solve complex problems and attend meetings with (key) customers when necessary
- Support Sales and PM in tender management for HSE requirements
- Support, training and provision of guidelines to the employees of PM team and external HSE consultancies working on behalf of PM
- Performance of audits and tracking status of implementation of HSE-standards in the projects and logistic activities
- Maintain an effective working relationship and dialogue with HSE staff (including local authorities, subcontractors and consultancy companies) for guidance, follow up and alignment on HSE related activities
- Establish working relationships with local, but also headquarter ENERCON organization and support organizations to ensure consistency
- When necessary support that required regulatory permits are acquired, that reports are submitted to regulatory agencies, and that permit conditions (eg. recordkeeping) are being met

## DRIVING THE FUTURE
