

Field Service Technician

Your tasks

- Service, maintenance and repair of ENERCON wind turbines in the surrounding areas from the base location
- Responsible for a variety of state of the art electrical, electronic and mechanical equipment
- Maintain excellent communication with all departments
- Responsible for completing all computerised documentation
- Weekend emergency call out service and late shift work involved

Your profile

- Qualified as an electrician with experience working in either the power generation, aerospace, industrial, agricultural or automotive industries
- Previous experience working on wind turbines is an advantage
- Full clean driving licence and Safe Pass Card are essential
- Flexibility and high mobility required - willingness to travel to meet the companies' requirements
- Have a positive, pro-active approach to working in a team environment along with excellent organisational and interpersonal skills
- Physically fit and comfortable with heights
- IT Skills essential

The initial training for this position will take place in one of our existing service areas in Ireland for a minimum period of three months where accommodation will be provided to the successful candidate.

Service technicians work in teams which are provided with a company vehicle from the base, work tools and the appropriate working clothes.

DRIVING THE FUTURE

Innovative ideas are the hallmark of our successes and move us on. We are passionate about realizing wind energy projects across the globe and meeting tomorrow's energy technology challenges. You and your engagement can make a contribution to shape the future of renewable energies.
