

Rotor Blade Technician

Your tasks

- Inspection, maintenance and repair of our rotor blades on ENERCON wind turbines throughout Ireland and abroad
- Blade work will vary between existing wind farms and wind farms under construction
- Compiling comprehensive rotor blade inspection reports
- Assist with the maintenance and repair of existing wind turbines nationwide, as and when required

Your profile

- Completed apprenticeship in a technical trade – mechanical fitter, aircraft mechanic, carpenter, marine repairs, etc.
- Technically competent, a strong mechanical aptitude along with a good working knowledge of GRP
- Previous experience of blade repair and/or fiberglass repair work is essential
- Previous experience working on wind farm sites would be a distinct advantage
- A valid Safe Pass Card
- Full, clean B driving license essential, C, C1, E+B licenses an advantage
- Physically fit with the ability to work at heights
- Geographical mobility is essential – willingness to travel and work nationwide and abroad
- Have a positive, pro-active approach to working in a team environment along with excellent organisational and interpersonal skills
- Proficient computer skills

Rotor Blade Technicians work in a team which is provided with a company vehicle from the base in Donegal, work tools and the appropriate work clothes.

DRIVING THE FUTURE

Innovative ideas are the hallmark of our successes and move us on. We are passionate about realizing wind energy projects across the globe and meeting tomorrow's energy technology challenges. You and your engagement can make a contribution to shape the future of renewable energies.
