

Health, Safety & Environment (HSE) Manager (m/w/d)

Your Tasks

- Assist and advise Installation, Service and / or Operational Managers with the completion of hazard identification, risk (management) assessments & method statements as required;
- Assist and advise Management in the planning, implementation, monitoring (follow-ups) & reviewing of ENERCON H&S 'Standards' / local management systems;
- Work with the local Management to satisfy the needs of customers;
- Travel to ENERCON locations / sites and customer premises throughout the country to ensure national / ENERCON H&S 'Standards' are being complied with;
- Conduct location / site visits and inspections as per annual, local H&S (action) plans / local work schedules / as required;
- Support the local Management in ensuring compliance with country laws and legislation;
- Investigate & report incidents to the reporting chain and the relevant national authorities (where applicable) who must be informed;
- Assist and advise the local Management in any perceived failings (i.e. non-conformities) in any H&S 'Standards' and / or management systems;
- Assist and advise the local management on failings of employees and provide written re-ports when required;
- Respond to / act upon any reasonable request made from the local Management;
- Assist in creating H&S minutes of meetings (MOM) for Management;
- Promote H&S using Global HSE and local 'safety-creating' awareness programs and initiatives;
- Ensure regular (progress) communication with the HSE Director for all matters related to H&S for their country;
- Ensure Monthly Reports are completed and distributed to the HSE Director and Country Managing Director;
- Ensure a hand-over / take-over (HO/TO) of work has taken place and HSE Director and local Management fully informed prior to any absence;
