

Regional Category Manager- Bearings, Drives, Mechanicals (APAC) (Taipei)

Your Tasks

- Responsible for procurement and category management activities for bearings, drives and other mechanical parts within APAC;
- Initiation of sourcing activities in line with global category strategy, e.g. execution of requests for quotation, tender activities, bid comparisons and award decisions;
- Lead of supplier negotiation and contract negotiations within the respective categories;
- Design and implementation of procurement strategies to gain cost reductions and further improvements along the entire supply chain;
- Optimize and manage the regional supplier panel in line with global category strategy;
- Ensure achievement of category and supply chain relevant KPIs with regards to costs, quality and material availability to ensure total cost efficiency;
- Derive corrective actions and improvement measures based on KPIs and performance reports;
- Cooperate in and contribute to cross functional category teams to ensure continuous improvement on category related challenges.

Your Skills

- Bachelor Degree in Industrial / Mechanical Engineering / Business Management and proven technical experience;
- Min. 3+ years of professional experience;
- Good team worker, but also assertiveness and ability to get things done in a self-driven way;
- Good understanding of figures and the ability to analyze and prepare complex issues in depth and same time easy to grasp;
- Organized and disciplined way of working;
- Flexibility to conduct business trips (min. 30%);
- Fluent English skills;
- Good knowledge of English, Mandarin as well as Microsoft Office.
