

ENERCON. Where everything revolves around **your future.**

As one of the leading wind energy converter manufacturers, ENERCON has been setting technological milestones in the industry for more than 25 years. With production plants on three continents and market representation in 36 countries, committed ENERCON employees are working towards the company's worldwide success. For our team in **Isle of Skye - Scotland** we are looking for a qualified:

Electrical Technician (m/f)

Your Tasks

You will be a point of contact for all electrical issues with the wind turbines including upgrades and fault diagnosis. You will be based from the Isle of Skye and be expected to travel to wherever necessary on a daily basis to maintain the ENERCON Turbines to the highest of standards.

You will be climbing turbines and therefore would be expected to have a good head for heights as well as the stamina to perform this integral job requirement on a very regular basis. Service Technicians work in teams and are provided with a company vehicle, tools, appropriate work clothes and PPE.

Your Skills

- Fault finding and reporting on electrical equipment
- Installation and retrofitting of key electrical components
- Ability to carry out risk assessments and method statements
- Experience with maintenance schedules
- Maintaining error logs, maintenance paperwork
- Maintaining good communication flow and customer contact
- Proactive approach to work
- Experience with 35KV switching would be advantageous

Our Requirements

- You will be a qualified electrician ideally with heavy industry / manufacturing experience
- You will have at least a level 3 qualification in an electrical or engineering discipline or equivalent.
- You will be literate and numerate, with good IT skills
- We need high mobility (willingness to move and to travel), flexibility, openness and team spirit
- Clean and valid UK Driving Licence
- Ideally you should already be living on the Isle of Skye or be prepared to relocate there.

If you are interested in a position with ENERCON and would like to receive further information, you can visit our website: www.enercon.de. If you are interested in applying, please send us a completed Personal Questionnaire which is available from the ENERCON website, and your CV, and then forward these to:
