

## Supplier Account Manager (m/f/d)

### Responsibilities:

- Owner of regional supplier relationship with external assembly / manufacturing partners for main components;
- Key interface between external assembly suppliers and ENERCON;
- Manage compliance of contractual obligations resulting from assembly and manufacturing contracts with external suppliers;
- Track and manage contract-relevant KPIs concerning costs, quality and supply chain availability to ensure total cost efficiency;
- Consolidate supplier performance relevant KPIs into periodic management reports;
- Drive execution of upcoming tasks and timely escalation of performance related issues such as delays on contractual deliverables;
- Monitoring and expediting of milestones, timelines and targets along entire supplier life cycle;
- Responsible for coordination between supplier, Global Procurement and other cross-functional stakeholders.
- Drive supplier progress and lead cross-functional reviews to assure timely completion of contractual milestones;
- Manage and guarantee supply contract compliance in phases of new product introduction or ramp up / ramp down for model changes;
- Cooperate with Global Category Managers for perpetual benchmarking of current sources to drive cost and quality related KPIs;
- Initiate and coordinate cost out measures throughout the value chain;
- Detect and mitigate supply line risks with potential impacts on cost and quality;
- Escalation of non-compliance on cost, delivery and quality performance.

## DRIVING THE FUTURE

Innovative ideas are the hallmark of our successes and move us on. We are passionate about realizing wind energy projects across the globe and meeting tomorrow's energy technology challenges. You and your engagement can make a contribution to shape the future of renewable energies.
