

SHAPING VISIONS

Service Technician Electrical

Your tasks

- The service technician is responsible for the maintenance and repair of our wind energy plants at Miaoli, Taichung and Changhua in Taiwan. He/She is responsible for a variety of electronic, electrical and/or mechanical equipment. The service technician reports to the field area supervisor.

Your qualification

- Qualified as an electrician with electrical experience or qualifications and experience in electrical engineering, automatic control, automobile or vehicle electrical engineering, general or workshop electrician or metal-workers etc;
- High mobility (willingness to move and to travel), flexibility, openness and team spirit;
- Comfortable with heights and confined space;
- Can accept flexible working times (willing to no weekends and holidays occasionally with overtime payment);
- Self-steering and independent;
- Basic English communication skills (Chinese not required).

DRIVING THE FUTURE

Innovative ideas are the hallmark of our successes and move us on. We are passionate about realizing wind energy projects across the globe and meeting tomorrow's energy technology challenges. You and your engagement can make a contribution to shape the future of renewable energies.
